IN THE CLAIMS

Please cancel Claim 2 without prejudice and amend Claims 1 and 4 as follows:

- 1. (Currently Amended) A GPS receiver having an omnidirectional antenna and a directional antenna characterised by the GPS receiver being configured to:
 - (i) acquire a first GPS signal from the output of the directional antenna, either alone or combined with the output of the omidirectional antenna, and
 - (ii) acquire a second GPS signal from the output of the omnidirectional antenna alone using assistance data obtained from the first GPS signal.
- 2. (Cancelled)
- 3. (Original) A GPS receiver according to claim 1 packaged for sale with instructions directing a user of the GPS receiver to point the GPS receive in a direction from which a GPS signal is most likely to be acquired.
- 4. (Currently Amended) A GPS receiver <u>according to claim 1</u>, <u>wherein having an omnidirectional antenna and a directional antenna characterised by</u> the GPS receiver <u>is being</u> configured to acquire a GPS signal from the output of the directional antenna <u>alone</u>anlone.
